All Members registered with CBRICS/ New Members

Dear Sir/Madam

Launching of FIMMDA Integrated Reporting platform (F-TRAC) for deals in Corporate bond, Corporate Bond Repo, CDs/CPs

As you are aware that, in terms of instructions from Regulators viz SEBI and RBI, FIMMDA has set up a Reporting platform (CBRICS), leased from NSEIL, for reporting of trades in Corporate Bonds and CPs/CDs and the registered members have been reporting their trades in these debt securities in the platform since October 2007. Simultaneously, FIMMDA has also set up its own reporting platform for trades in Repo in Corporate Bond (CBRRP), software developed by and managed by Clearcorp Dealing System (India) Ltd.(CDSIL), which is in operational since 1st July 2010.

In order to consolidate all the above categories trades reporting into one platform, FIMMDA has now developed, with the association of CDSIL, an integrated reporting platform for reporting the trades in:

- a) Corporate Bonds
- b) Repo in Corporate Bonds
- c) CDs/CPs

The reporting platform is being set ready for operation shortly. The reporting platform will have the facility for the entities to report their deals in all the above mentioned debt securities in one platform. Furthermore, the reporting platform, which is named as F-TRAC, will have the capability for users for sending trades details for settlement by STP solution through their choice clearing house exchanges.

Accordingly all entities, including those already registered with CBRICS with NSEIL or CBRRP, mandated to report their deals in the abovementioned securities, are now requested to send the duly filled in and signed Registration form and Rules & Regulations (available on the website www.fimmda.org) to enable us to incorporate the data in the system.

All members are requested to send the Registration form at the earliest to enable us to switch over to the new platform smoothly and speedily.

(The link for accessing and reporting the trades will be made available on our website www.fimmda.org)

The registration and other charges required to be levied will be advised separately.

Thanking you,

Yours faithfully,

C.E.S.Azariah,

Chief Executive Officer.

Unless otherwise considered as a reasonable practice by FIMMDA, a pattern or practice of regular late reporting shall be considered as conduct inconsistent with high standards of commercial honor and just and equitable principles of trades. In this regard, FIMMDA shall be free to take such action as it may deem fit and/or report such delay to such regulator as it may deem fit.

Matching Pre-requisites

Once both the Eligible Participants who are counterparties to Transaction report the Transaction on F-TRAC's corporate bond system, such Transactions would be considered for matching. All

such reported Transaction would be first validated for matching with base matching criteria which includes the following:

- (a) Counterparty: Both the Eligible Participant to the Transaction should have reported the other party as counterparty to the Transaction.
- (b) Deal Type: If a Eligible Participant has reported buy transaction then the counterparty should have reported the opposite Transaction i.e. sell transaction.
- (c) ISIN: Both the participants should report same Bond Description.
- (d) Deal Date: Both the participants should report same Deal date of the Transactions.
- (e) Settlement Type: The settlement type selected by both Participants should be same.

Once all the five base criteria are matched, System would proceed with matching of remaining Transaction fields such as amount (FV), yield, accrued interest, consideration, quantity, deal time, intermediary and intention to settle.

During the matching process, if encounters any discrepancies in reporting of above fields then system would provide appropriate information to the respective Participants through the queries available on system. If all the remaining details are also matched the same would considered as matched deal by system.

FIMMDA may at its discretion, modify or change such rules, parameters and/or matching algorithms from time to time;

Procedures for reporting of Transactions in certificate of deposit and commercial paper markets.

The requirements and instruction are set out in the F-TRAC operating guidelines. In the event of any inconsistency between the provisions of these Rules and the F-TRADEF-TRAC operating guidelines, the provisions of the F-TRAC operating guidelines shall prevail. The following important details are required to be reported:

- (a) **Deal Type** - shall be selected from the drop down list as buy or sell.
- (b) **ISIN Description** - shall be selected from the corporate bond list available in the Deal Entry form.
- (c) **Counterparty** – All Eligible Participant have been stored in the data base and accordingly will be selected and reported.
- (d) **Amount in (FV)** – The nominal value of the bonds shall be entered in face value terms.
- (e) **Yield** - The yield at which the Transaction has been contracted will need to be reported.
- (f) **Price** – The Deal price would be computed by the system based on the yield and residual tenor of certificate of deposit or commercial paper.
- (g) **Consideration** - Based on the amount, price and the accrued interest inputted, system would compute the consideration amount for the trade.
- (h) **Quantity** - Based on the nominal value implemented by the Eligible Participant, the system would compute the quantity, however incase the quantity computed by the system does not tally with the Eligible Participants quantity the same is allowed to be modified.
- (i) **Discount** – System would compute the discount amount based on the difference between consideration of trade and the maturity Value.
- (j) **Intention to Settle** - Incase the Eligible Participants opting for settlement through the clearing house then they are required to indicate and select the clearing house.
- (k) **Compliance with reporting requirements** -

FIMMDA expects all Eligible Participants to report the Transaction within the laid down timelines, and take adequate care to ensure that details of Transaction are not misreported in any manner. Unless otherwise considered as a reasonable practice by FIMMDA, a pattern or practice of regular late reporting shall be considered as conduct inconsistent with high standards of commercial honor and just and equitable principles of trades. In this regard, FIMMDA shall be free to take such action as it may deem fit and/or report such delay to such regulator as it may deem fit.

Matching Pre-requisites

Once both the Eligible Participants who are counterparties to Transaction reports the Transaction on F-TRAC, such Transactions would be considered for matching. All such reported Transaction would be first validated for matching with base matching criteria which includes;

- (a) Counterparty: both Eligible Participants to the Transaction should have reported the other party as counterparty to the Transaction.
- (b) Deal Type: if an Eligible Participant has reported buy transaction then the counterparty should have reported opposite transaction i.e sell transaction.
- (c) ISIN: both the Eligible Participants should report same bond description.
- (d) Deal Date: both the Eligible Participants should report same deal date of the Transactions.
- (e) Settlement Type: the settlement type selected by both Eligible Participants should be same.

Once all the five base criteria are matched, system would proceed with matching of remaining transaction fields such as amount (FV), yield, quantity, deal time, intermediary and intention to settle.

During the matching process, if encounters any discrepancies in reporting of above fields then system would provide appropriate information to the respective Eligible Participants through the queries available on system. If all the remaining details are also matched the same would be considered as matched deal by system.

FIMMDA may at its discretion, modify or change such rules, parameters and/or matching algorithms from time to time;
